MIGHTY G

POWERFULLY COMPACT

The ultimate entry into boating, the Mighty G, is compact and highly maneuverable. The Mighty G is built on a true pontoon foundation ensuring a familiar and comfortable ride. Unlike other pontoons where power is an afterthought, the Mighty G was designed from the ground up to be powered by electric or gas propulsion. While it may be small, it truly is the Mighty G!

Make it last

WHY GODFREY PONTOON BOATS

Heritage & Future

We've been building pontoons since 1958; including one of the first aluminum pontoons & we look forward to another 60+ years!

Dealer Partners

Extensive network of experienced Dealer Partners; many have been with Godfrey for over 30 years!

Performance

From the Mighty G Series to the XP Series with up to 1000 HP, our boats are engineered to excite, thrill & spoil your families.

Choices

We provide numerous options on colors & content to get the boat of your dreams built with the features you want.

Construction

Overbuilt for a reason & we back it with our Lifetime Structural Warranty.

Value

More boat for your money, with higher resale value. Godfrey is a pontoon leader.

Quality

Our customers have spoken. Godfrey is built to last & we have the Industry awards to prove it.

Confidence

Certified to the highest Industry standards & we keep challenging ourselves daily to build the best product on the water.

Innovation

Pushing the boundaries, from our electric-powered Mighty G to the custom interactive screens on the XP.

Construction

As a recognized leader in quality, innovation and styling, Godfrey Pontoon Boats continues to set the standard for design, construction and innovation. In fact, Godfrey pioneered many of the systems that have become industry standards. With over 60 years of experience, we work hard to build boats that will be part of your family for years to come.

Built to Last

There are plenty of pontoon manufacturers out there today, but how many can say they've been building boats for over half a century?

Godfrey Pontoon Boats introduced one of the first all-aluminum pontoon boats, Sanpan, in 1958.

Robotic Welding

State-of-the-art, robotic welding provides the highest quality welds in every boat we build. Godfrey Pontoon Boats is one of the first manufacturers in the industry to use robotic welding.

Heavy-Duty Nose Cones

Our heavy-duty nose cones not only provide added strength, but are part of what creates the lift, speed, and smooth ride that Godfrey is known for.

6" Lifting Strakes

Our 6" strakes provide up to 50% more lift than competitors that use smaller strakes. This lift results in higher speeds, improved handling, quicker planing & better fuel economy.

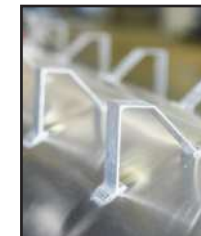

Chambered Tubes

Our tubes are engineered for strength by using a beaded baffle between every chamber. These are welded in place & the chambers are seam welded together to produce a robust tube with strength needed for our lifetime structural warranty.

Spray Fins

We use 24" long beveled, heavy duty extruded spray fins. We then weld them on tubes at specific locations to control water management at all speeds, keeping you and your crew high and dry.

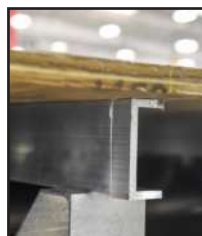

Saddle Brackets

At 5", our extruded saddle brackets are wider & taller than competitors. We also use thicker material for the feet where they are welded to the tubes. This bracket is the foundation for the entire boat & part of the reason for our higher, smoother ride.

F-Channel Rubrail

The thickness & shape of the extruded F-Channel rubrail creates a durable deck-edge finish to protect your boat from dock rash & dings. It adds to our structural integrity & is not just for looks.

3" C-Channel

We use taller, thicker and more closely spaced C-Channels to connect the deck to the pontoons. When combined with our extruded saddle brackets, you get not only a sturdier-built boat, but also a higher, more comfortable ride.

Elevator Bolts

We use Stainless Steel Elevator Thru Bolts & Nylock nuts vs sheet metal screws used by competitors. We secure our decks with precision, allowing bolts to stay intact and anchored to the foundation.

GODFREY APPAREL & ACCESSORIES

Customize Your Ride—Your Way

Godfrey's Click & Cruise system turns your pontoon into a customizable space that adapts to your crew, your style, and your day. Available on all 2026 Sanpan, Monaco, Sweetwater, and Xperience models, this modular rail system lets you easily attach, move, or remove accessories—no tools needed. Its all about convenience, versatility, and style.

Experience the Godfrey Lifestyle

For over 60 years, Godfrey Pontoon Boats have been synonymous with world-class craftsmanship and, more importantly, the quality of time spent with loved ones. We've incorporated that same commitment to bring you a wide range of apparel and accessories that redefines the boating experience. Our thoughtfully designed gear enhances your Godfrey lifestyle on and off the water, empowering you to create unforgettable moments with the ones closest to you.

Lifetime Structural Warranty

Limited Lifetime coverage against structural failure of all pontoon tubes, StrataTech Chassis (under-deck structure), rails and gates so long as the original owner owns the product. Free of charge for materials and labor.

Lifetime Marine Deck PTP Deck Panels

Limited Lifetime coverage to repair or replace any Marine Deck PTP deck panels and related PTP products free of charge for materials and labor. Lifetime warranty is exclusive to the original retail product owner and the balance of 10 years from original purchase date can be transferred to a second owner. Please visit your local dealer for specifics regarding transfer of warranty coverage.

***10 Year Flooring & Canopy Fabrics**

Carpet, canopy fabric and canopy frames warranted free of charge for materials and labor. Warranty extends to the first retail purchaser only and begins on date of delivery to first retail purchaser.

***10 Year Furniture & Upholstery**

Foam seats and furniture upholstery warranted free of charge for materials and labor. Warranty extends to the first retail purchaser only and begins on date of delivery to first retail purchaser.

***5 Year Electrical & 10 Year Components**

5 year coverage of electrical, electronics, and hydraulics. 10 year coverage of all other factory installed components. Warranty extends to the first retail purchaser only and begins on date of delivery to first retail purchaser.

* For Mighty G models, a Limited 3-Year warranty applies.
